using a computer having a display and connected to the Internet,

accepting a user input of a Traditional Chinese word;

determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;

searching a dictionary for an entry containing a the Traditional Chinese word;

using Unicode to determine a Simplified Chinese word equivalent of a the Traditional Chinese word; and

using Unicode to translate the Traditional Chinese word into an accented Pin Yin word and an English word; and

responsive to a user activation of a single control on the graphical user interface, displaying the Simplified Chinese word, the Traditional Chinese word equivalent, the accented Pin Yin word, and the English word.

9. (original) The method of claim 8 wherein the entry exactly matches the Traditional Chinese word.
10. (original) The method of claim 8 wherein the entry begins with the Traditional Chinese word.
11. (original) The method of claim 8 wherein the entry contains the Traditional Chinese word anywhere in the entry.
12. (original) The method of claim 8 further comprising: accepting the Traditional Chinese word as user input, wherein the Traditional Chinese word is encoded in Big 5 or Unicode.
13. (original) The method of claim 8 further comprising: translating the Traditional Chinese word from Big 5 to Unicode.
14. (original) The method of claim 8 further comprising:
displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin Yin word, and the English word; and
wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.
15. (currently amended) A method comprising:
using a computer having a display and connected to the Internet,
accepting a user input of a Pin Yin word;

determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;
searching a dictionary for an entry containing a the Pin Yin word; and
using Unicode to translate a the Pin Yin word into a Traditional Chinese word, a Simplified Chinese word, and an English word; and
responsive to a user activation of a single control on the graphical user interface, displaying the Pin Yin word, the Simplified Chinese word, the Traditional Chinese word, and the English word.

16. (original) The method of claim 15 wherein the entry exactly matches the Pin Yin word.
17. (original) The method of claim 15 wherein the entry begins with the Pin Yin word.
18. (original) The method of claim 15 wherein the entry contains the Pin Yin word anywhere in the entry.
19. (original) The method of claim 15 wherein the Pin Yin word is an unaccented Pin Yin word or a hybrid Pin Yin word.
20. (currently amended) The method of claim 15 ~~further comprising:~~
~~displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin Yin word, and the English word; and~~
wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.
21. (currently amended) A computer implemented method comprising:
using a computer having a display and connected to the Internet,

accepting a user input of an English word;
determining if the user input is an entire desired word, a beginning of the
entire desired word, or whether the user input appears anywhere in the desired word;
searching a dictionary for an entry containing ~~an~~ the English word; and
using Unicode to translate ~~an~~ the English word into a Traditional Chinese
word, a Simplified Chinese word, and an accented Pin Yin word;
responsive to a user activation of a single control on the graphical user
interface, displaying the English word, the Traditional Chinese word, the Simplified
Chinese word, and the accented Pin Yin word.

22. (original) The method of claim 21 wherein the entry exactly matches the English word.

23. (original) The method of claim 21 wherein the entry begins with the English word.

24. (original) The method of claim 21 wherein the entry contains the English word anywhere in the entry.

25. (currently amended) The method of claim 21 ~~further comprising:~~

~~displaying the Simplified Chinese word, the Traditional Chinese word, the~~
~~accented Pin Yin word, and the English word; and~~

wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.

26. (currently amended) A program product operable on a computer having a display and
connected to the Internet, the program product comprising:

a computer-usable medium containing instructions encoded thereon and executable on a computer connected to a display and to a network, the instructions comprising:

~~wherein the computer-usable medium comprises instructions comprising:~~

accepting a user input of a Simplified Chinese word;

determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;

instructions for searching a dictionary for an entry containing a the Simplified Chinese word;

instructions for using Unicode to determine a Traditional Chinese word equivalent of a the Simplified Chinese word; and

instructions for using Unicode to translate the Simplified Chinese word into an accented Pin Yin word and an English word;

instructions for, responsive to a user activation of a single control on the graphical user interface, displaying the English word, the Traditional Chinese word, the Simplified Chinese word, and the accented Pin Yin word.

27. (original) The program product of claim 26 wherein the entry exactly matches the Traditional Chinese word.
28. (original) The program product of claim 26 wherein the entry begins with the Traditional Chinese word.
29. (original) The program product of claim 26 wherein the entry contains the Traditional Chinese word anywhere in the entry.

30. (original) The program product of claim 26 further comprising: instructions for accepting the Traditional Chinese word as user input, wherein the Traditional Chinese word is encoded in Big 5 or Unicode.
31. (original) The program product of claim 26 further comprising: instructions for translating the Traditional Chinese word from Big 5 to Unicode.
32. (currently amended) The program product of claim 26 ~~further comprising:~~
~~instructions for displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin-Yin word, and the English word; and~~
wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.
33. (currently amended) A program product operable on a computer, the program product comprising:
a computer-usable medium containing instructions encoded thereon and executable on a computer connected to a display and to a network, the instructions comprising:
~~wherein the computer-usable medium comprises instructions comprising:~~
accepting a user input of a Traditional Chinese word;
determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;
instructions for searching a dictionary for an entry containing a the Traditional Chinese word;

instructions for using Unicode to determine a Simplified Chinese word equivalent of a the Traditional Chinese word; and

instructions for using Unicode to translate the Traditional Chinese word into accented Pin Yin word and an English word;

instructions for, responsive to a user activation of a single control on the graphical user interface, displaying the English word, the Traditional Chinese word, the Simplified Chinese word, and the accented Pin Yin word.

34. (original) The program product of claim 33 wherein the entry exactly matches the Traditional Chinese word.

35. (original) The program product of claim 33 wherein the entry begins with the Traditional Chinese word.

36. (original) The program product of claim 33 wherein the entry contains the Traditional Chinese word anywhere in the entry.

37. (original) The program product of claim 33 further comprising: instructions for accepting the Traditional Chinese word as user input, wherein the Traditional Chinese word is encoded in Big 5 or Unicode.

38. (original) The program product of claim 33 further comprising: instructions for translating the Traditional Chinese word from Big 5 to Unicode.

39. (currently amended) The program product of claim 33 ~~further comprising:~~
~~instructions for displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin Yin word, and the English word; and~~

wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.

40. (currently amended) A program product operable on a computer, the program product comprising:

a computer-usable medium containing instructions encoded thereon and executable on a computer connected to a display and to a network comprising:
accepting a user input of a Pin Yin word;
determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;

wherein the computer usable medium comprises instructions comprising:

instructions for searching a dictionary for an entry containing the Pin Yin word; and

instructions for using Unicode to translate the Pin Yin word into a Traditional Chinese word, a Simplified Chinese word, and an English word;

instructions for, responsive to a user activation of a single control on the graphical user interface, displaying the English word, the Traditional Chinese word, the Simplified Chinese word, and the Pin Yin word.

41. (original) The program product of claim 40 wherein the entry exactly matches the Pin Yin word.

42. (original) The program product of claim 40 wherein the entry begins with the Pin Yin word.

43. (original) The program product of claim 40 wherein the entry contains the Pin Yin word anywhere in the entry.

44. (original) The program product of claim 40 wherein the Pin Yin word is an unaccented Pin Yin word or a hybrid Pin Yin word.

45. (currently amended) The program product of claim 40 further comprising:

~~instructions for displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin Yin word, and the English word; and~~

wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.

46. (currently amended) A program product operable on a computer, the program product comprising:

a computer-usable medium containing instructions encoded thereon and executable on a computer connected to a display and to a network comprising;

~~wherein the computer-usable medium comprises instructions comprising:~~

instructions for accepting a user input of an English word;

determining if the user input is an entire desired word, a beginning of the entire desired word, or whether the user input appears anywhere in the desired word;

instructions for searching a dictionary for an entry containing ~~an~~ the English word; and

instructions for using Unicode to translate ~~an~~ the English word into a Traditional Chinese word, a Simplified Chinese word, and an accented Pin Yin word;

instructions for, responsive to a user activation of a single control on the graphical user interface, displaying the English word, the Traditional Chinese word, the Simplified Chinese word, and the Pin Yin word.

47. (original) The program product of claim 46 wherein the entry exactly matches the English word.
48. (original) The program product of claim 46 wherein the entry begins with the English word.
49. (original) The program product of claim 46 wherein the entry contains the English word anywhere in the entry.
50. (currently amended) The program product of claim 46 ~~further comprising:~~
~~displaying the Simplified Chinese word, the Traditional Chinese word, the accented Pin Yin word, and the English word; and~~
wherein the font size of the Simplified Chinese word and the font size of the Traditional Chinese word is user configurable.
